Foreword

I am pleased to forward to you the 1999 edition of "Crime In Idaho," which is the compilation of Uniform Crime Reporting data supplied by Idaho's law enforcement agencies at the local and state levels.

Contained in this publication is information about the nature and volume of crime in our State. The document's accuracy continues to be dependent upon the information provided by the contributors. Statistical information depicts offenses reported to law enforcement after confirmation of a call for service or complaint clearly indicates the commission of a crime. However, it does not reflect dispositions by a coroner, prosecutor, or court.

This publication is prepared with the hope of providing a valuable tool to assist law enforcement administrators in determining their priorities in the fight against crime. It should also prove to be a vital resource to legislators, researchers, educators, and other public and private agencies involved with criminal justice in Idaho.

The success and viability of this publication is the direct result of a joint venture between the Idaho State Police and all contributors. The collection and publication of crime statistics increases awareness for all citizens and establishes a greater understanding of the problems facing law enforcement. We remain fully committed to working closely with the criminal justice community and all concerned citizens on addressing the problems associated with criminal activity in our State.

1999 UNIFORM CRIME REPORTING PARTICIPANTS

Idaho State Police units of patrol, investigations, and Alcohol Beverage Control submit crime data under the Idaho Uniform Crime Reporting program. A special note of acknowledgment and gratitude is extended to these local law enforcement agencies for their participation and dedication to this program. Without their efforts to provide crime data, this publication would not be possible.

IDAHO UNIFORM CRIME REPORTING PROGRAM

Since 1974, the Idaho Uniform Crime Reporting (UCR) Program has participated in a nationwide statistical collaboration designed to collect accurate crime data from all law enforcement agencies in a "uniform" manner. This program is managed by the Idaho State Police, Bureau of Criminal Identification (BCI). Reporting definitions, rules, and guidelines are based on the Uniform Crime Reporting Handbook, NIBRS Edition, provided by the U.S. Department of Justice, Federal Bureau of Investigation.

OBJECTIVES: The program's primary objective is to provide a reliable set of criminal statistics for law enforcement purposes. Law enforcement administrators can utilize these statistics for operational use, such as determination of manpower and training needs, proper focus of enforcement efforts and deterrence programs, budgets, and grant proposals. Furthermore, these statistics can provide valuable information to assist law enforcement in identifying specific crime activity facing law enforcement, such as juvenile crime activity, domestic violence, child abuse, crime motivated by hate, property crime, and drug/alcohol related crime.

The program's secondary objective is to inform all government officials and the public as to the nature of the crime problems in Idaho, its magnitude and trends. Historically, statistics generated from UCR have proven to be a vital resource to legislators, educators, municipal planners, criminologists, media, advocate groups, and other public and private agencies involved with criminal justice throughout our country.

VERIFICATION PROCEDURES: An obvious concern in the collection of crime statistics is the validity and uniformity of the data received. Uniform federal guidelines and statewide training is available to all contributors. Each incoming report is examined for mathematical accuracy and, perhaps of even more importance, for reasonableness as a possible indication of errors. Adjustments or unusual variations are brought to the attention of the submitting agency and, if necessary, corrections are made.

CONSIDERATIONS FOR INTERPRETATION: Crime activity in a particular community can be deceiving unless specific factors are examined and taken into consideration before conclusions are made. Listed below are some conditions affecting the type and volume of crime:

- * population size, density, and degree of urbanization
- * population variations in composition and stability
- * economic conditions and employment availability
- * cultural factors and educational, recreational, and religious characteristics
- * effective strength of the police force
- * administrative and investigative emphases of law enforcement
- * prosecutorial, judicial, and/or correctional policies
- * values established by family, community, and society in general
- * citizens' attitude toward crime and police
- * crime reporting practices of citizens.

UCR COLLECTION AUTHORITY: Idaho Code 67-3006 states: A law enforcement agency shall submit to the department, at the time, in the manner, and in the form prescribed by the department, data regarding crimes committed within that agency's jurisdiction. The department shall publish an annual report, available no later than July 1 of the following year, containing the statistical information gathered under this section that relates to the number and nature of criminal offenses, arrests, and clearances, and any other data the director determines to be appropriate relating to the method, frequency, cause and prevention of crime.

Idaho Code 67-2915 states: All city, county and state law enforcement units shall be required to report to the director all incidences of, complaints on, and arrests for malicious harassment crimes within their respective jurisdictions. The director shall develop a standard procedure and shall prescribe and provide a standard form for complete and uniform reporting.

Malicious harassment is defined by Idaho Code 18-7902, which states: It shall be unlawful for any person, maliciously and with the specific intent to intimidate or harass another person because of that person's race, color, religion, ancestry, or national origin, to:

- (a) cause physical injury to another person; or
- (b) damage, destroy, or deface any real or personal property of another person; or
- (c) threaten, by word or act, to do the acts prohibited if there is reasonable cause to believe that any of the acts described in subsections (a) and (b) of this section will occur. For purposes of this section "deface" shall include, but not be limited to, cross-burnings or the placing of any word or symbol commonly associated with racial, religious, or ethnic terrorism on the property of another person without his or her permission.

METHOD OF DATA COLLECTION: The national UCR program is administered by the Federal Bureau of Investigation (FBI). Crime reporting on the national level is accepted under two methods. Summary-based method collects Part 1 offenses and arrests, which consists of 8 specific crimes, and arrest data only on Part 2 offenses. National Incident Based Reporting System (NIBRS) method collects Group A offenses and arrests, which consists of 22 additional offenses, and arrest data only on Group B offenses.

NIBRS is the methodology used by 100% of the UCR participating law enforcement agencies in Idaho. Each agency is responsible for compiling and submitting their crime reports to BCI. Submission options available to Idaho law enforcements agencies are: Idaho Law Enforcement Telecommunications System (ILETS); data download from state-approved agency records management systems; or state-standard NIBRS form, which is limited to agencies that have less than 50 reportable incidents a month.

POPULATION COVERAGE: In 1999, 108 law enforcement agencies participated in the Idaho UCR Program. Crime data received from these agencies represent statistical data covering approximately 99% of the estimated population of Idaho.

Population figures in this book are furnished by the U. S. Census Bureau.

CRIME COUNT: When comparing Idaho crime data with another state, consider the method of reporting. NIBRS, unlike summary reporting, counts up to ten different offenses within a single crime incident. Summary reporting counts only one offense per incident. NIBRS also has 22 additional reportable crime offenses than summary reporting. Therefore, total crime count and crime rates will be higher in a NIBRS reporting state compared to a summary reporting state.

NIBRS offenses are categorized by crimes against persons, property, and society. Crimes against persons are counted by each victim within an incident (i.e., three victims of murder committed at the same time and place calculate to three offenses of murder). Crimes against property and society are counted by each distinct incident (i.e., three victims of vandalism committed at the same time and place calculate to one offense of vandalism).

Group "A" Offenses			Group "B" Offenses (reported only when an arrest is made)
Crimes Against Persons	Crimes Against Property	Crimes Against Society	
Murder	Robbery	Drug/Narcotic Offenses	Bad Checks Curfew/Loitering/Vagrancy Disorderly Conduct DUI Drunkness Nonviolent Family Offenses Liquor Law Violations Peeping Tom Trespass of Real Property All Other Offenses Runaways - (not a crime) apprehended juveniles only
Negligent Manslaughter	Burglary/Breaking & Entering	Drug Equipment Offenses	
Forcible Rape	Larceny/Theft Offenses	Gambling Offenses	
Aggravated Assault	Motor Vehicle Theft	Pornography	
Simple Assault	Arson	Prostitution Offenses	
Intimidation	Bribery	Weapon Law Violations

Forcible Sodomy	Destruction of Property		
Sexual Assault w/Object	Embezzlement		
Forcible Fondling	Extortion/Blackmail		
Incest	Fraud Offenses		
Statutory Rape	Stolen Property Offenses		

Arrest data represents the number of persons arrested, not on charges lodged. One set of arrest data is submitted per person, per single apprehension. One arrest count can clear several offenses within the same incident and/or multiple incidents. The reporting agency determines the most serious offense and reports it as the arresting offense. Participating agencies should only report those arrests for offenses committed within their own jurisdiction. Traffic violations, except for DUI, Hit and Run (of a person), and Vehicular Manslaughter, are not collected under the UCR program.

CLEARANCES: Offenses are considered "cleared" when at least one offender is arrested for a crime, or the reporting agency clears the offenses by exceptional means. An exceptional clearance can only be taken under the following circumstances:

- (a) at least one offender is positively identified (exact age, sex, and race)
- (b) agency must have sufficient probable cause to support an arrest or charge
- (c) agency is aware of offenders' location so that an arrest could be made
- (d) physical arrest is not possible due to death of the offender, prosecution declined, victim refused to cooperate, juvenile/no custody, or extradition denied.

Crime report status of inactive or case closed does not necessarily "clear" offenses. Unfounded reports, those deemed to be false, without merit, or in fact did not occur are not counted.

 - 5.9% decrease of crimes against persons.
 - 29.9% of total victims were under the age of 18 years.

The crime clock should be viewed with care. Being the most aggregate representation of the UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Group "A" Offenses. This mode of display should not be taken to imply a regularity in the commission of the offenses, rather, it represents the annual ratio of crime to fixed time intervals.

IDAHO URBAN/RURAL CRIME IN 1999

U.S. Census Bureau defines urban as incorporated cities with a population of 2,500 or more. Rural is defined as cities with a population less than 2,500 and unincorporated county areas. County areas adjacent to a large city and with a population density of at least 1,000 persons per square mile may be considered urban based on percentage of urban/rural. The Department of Commerce provided data indicating urban/rural percentages for the counties of Idaho. For publication purposes, the reporting counties with an estimated 80% or more urbanization are calculated under the urban category in totality.

MURDER

- The willful killing of one human being by another -

The classification of this offense is based solely on police investigation as opposed to the determination of a court, medical examiner, coroner, jury, or other judicial body. Deaths caused by negligence, suicide, accident, or justifiable homicide are not included in the offense of murder. Attempts and assaults to murder are classified as aggravated assaults and not as murder.

The offense of burglary/breaking & entering is counted when there is forcible entry, unlawful entry (no force), or attempted forcible entry of a structure. Structure is defined for UCR purposes as a structural unit that is permanently fixed and/or used as an office, residence, or storehouse. Structures are considered to include, but not limited to the following: dwelling house, office building, school, church, house trailer (used as a permanent dwelling), barn, warehouse, etc.

A vehicle is not considered a structure under UCR definitions; therefore, auto burglary is not included in this category. Auto burglary crimes are counted under larceny/theft offense.

MOTOR VEHICLE THEFT

- The theft of a motor vehicle -

A motor vehicle is defined for UCR purposes as a self-propelled vehicle that runs on land surface and not on rails, and whose primary purpose is to transport persons. The following categories in this offense are: automobiles; buses; recreational vehicles; trucks; and other motor vehicles, i.e. motorcycles, scooters, mopeds, golf carts, snowmobiles, etc.

Tractors, farm and industrial equipment, and lawn mowers are not considered "motor vehicles" as the primary purpose is not to transport persons. Motor vehicle theft excludes taking for temporary use by those persons having lawful access to the vehicle. Included in the count of this offense is "joy riding".

KIDNAPING/ABDUCTION

- The unlawful seizure, transportation, and/or detention of a person against his/her will, or a minor without the consent of his/her custodial parent(s) or legal guardian -

Reported Offenses	Change from 1998
198	down 5.7%
Offenses Cleared	Total Arrests

◆ 22.7% victims of kidnaping/abduction were 10 years of age or younger.

Although the object of a kidnap may be to obtain money or property, kidnaping is a crime against persons. This offense includes not only kidnaping and abduction, but hostage taking as well. This category is intended to capture information on only the persons actually kidnaped or abducted, not those persons or organizations paying ransoms. Therefore, for each offense of kidnaping, the victims are only the persons taken or detained against their will.

Note: A major volume of reportable incidents involving the Idaho State Police are generated by assisting other law enforcement agencies. When an agency assists another agency, those incidents should be reported by the originating jurisdiction where the crime occurred. Idaho State Police, comprised of Patrol, Investigations, and Alcohol Beverage Control, only report those incidents where they are designated as the primary investigating agency.

HATE CRIME IN IDAHO

“Morally, we all recognize hate as an evil, and we have long struggled as a society to understand hate as a sickness, but legally we must increasingly confront hate as a vicious breaking of the law” ...Attorney General Dick Thornbury

Crime In Idaho - 1999

HATE CRIME

- A criminal offense committed against a person or property which is motivated in whole or in part, by the offender's bias against a race/national origin, religion, sexual-orientation, mental/physical disability or ethnicity -

Reported Incidents	Change from 1998

Hate crime incidents are identified on the subjective motivation of the offender(s). Law enforcement investigations solely determine the sufficient objective facts to lead a reasonable and prudent conclusion that the offender's actions were motivated by bias against a racial, religious, ethnic/national origin, mental/physical disability, or sexual-orientation group. Information derived from the following statements can establish supportive facts to correctly identify hate bias motivation:

- * bias-related drawings, markings, symbols, or graffiti were left at the crime scene.
- * bias-related oral comments, written statements, or gestures were made by the offender which indicate his/her bias.
- * the incident coincided with a holiday relating to, or a date of particular significance to, a race, religion, disability, ethnicity, or sexual-orientation.
- * the offender and the victim were of different race, religion, ethnicity, or sexual-orientation.
- * certain objects, items, or things which indicate bias were used in the commission of the crime.
- * the victim is a member and/or engaged in activities promoting a racial, religious, disability, ethnic, or sexual-orientation group.
- * several incidents occurred in the same locality, at or about the same time, and the victims were all of the same race, religion, disability, ethnicity, or sexual-orientation.

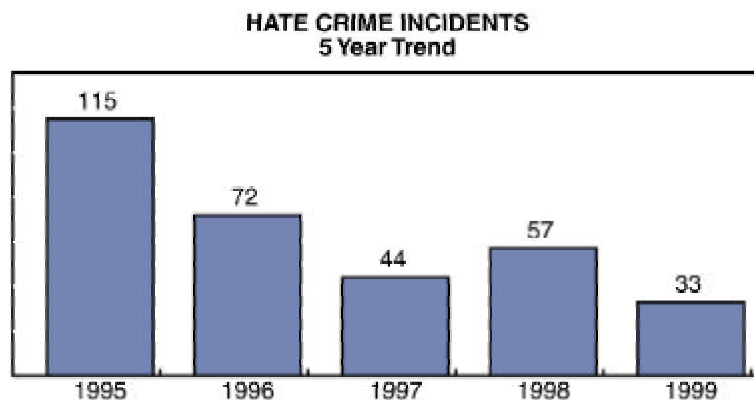

Accurate data collection for hate crime depends heavily on proper training of law enforcement to recognize such incidents and the cooperation and desire of law enforcement communities to report these offenses without the influence of special interest groups, media, and politics. Training material for recognizing and reporting hate crime has been distributed to all law enforcement departments by the Idaho State Police, Bureau of Criminal Identification. Also, additional training on hate crime is available each year in conjunction with the Idaho POST certified Uniform Crime Reporting course conducted at six regional locations throughout the State.

Crime In Idaho - 1999

IDAHO VICTIMS OF CRIMES AGAINST PERSONS

The following offenses are classified as crimes against persons: Murder, Negligent Manslaughter, Rape, Aggravated Assault, Simple Assault, Intimidation, Kidnapping, Forcible Sodomy, Sexual Assault with an Object, Forcible Fondling, Incest, and Statutory Rape. Crimes against persons are counted by the number of victims reported within a crime incident.

**TOTAL VICTIMS OF CRIMES AGAINST PERSONS

**JUVENILE VICTIMS

By UCR NIBRS definition, simple assault victims sustain minor or no injury. Weapons used to commit a simple assault, personal or other, do not have the potential to induce an injury more than minor.

Injury and weapon data are not collected on the offenses of intimidation, statutory rape, and incest. By definition, intimidation offenses involve no injury and no weapon. Nonforcible sex offenses, statutory rape and incest, are of a nonviolent nature, which would also involve no injury and no weapon.

IDAHO LAW ENFORCEMENT OFFICERS ASSAULTED

"It is critical to recognize that the constitution does not require officers to assume greater risks than those inherent in the job" ... Supreme Court

Crime In Idaho - 1999

IDAHO LAW ENFORCEMENT OFFICERS ASSAULTED IN 1999

The killing or assault of law enforcement officers is an increasingly serious problem faced by law enforcement administrators nationwide, and should be of the gravest concern to the public at large. Today the ambitious young person who considers a career in law enforcement must also consider the risk of being killed or assaulted by a member of the society they are sworn to protect.

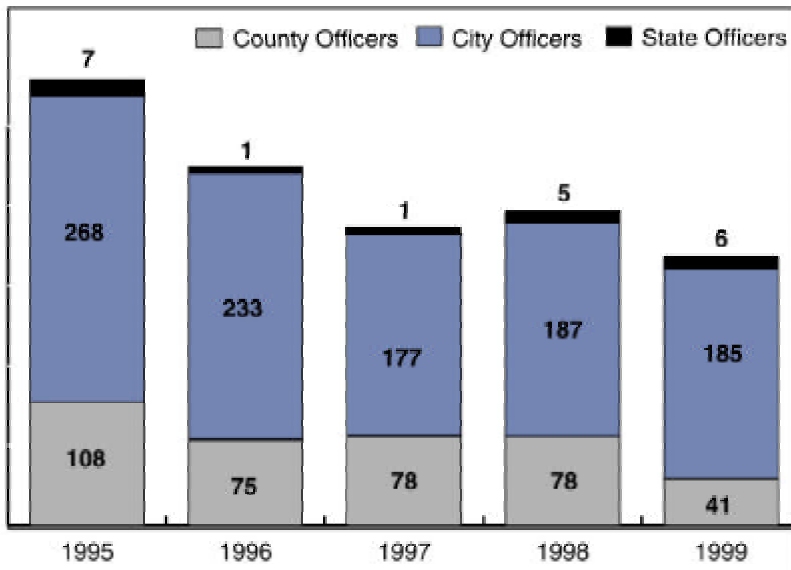

Reported Assaults	Change from 1998
232	down 14.1%
Officers Assault Incidents Cleared

Assaults on law enforcement officers are collected on sworn officers only. Reportable assaults, which include aggravated assault, simple assault, and intimidation offenses, should result from a serious injury, use of weapon, or action involving more than mere verbal abuse or minor resistance to an arrest.

1999 ARRESTS IN IDAHO

The term "arrest" is defined as a physical arrest, citation or served summons. This data is collected on persons arrested, not on charges lodged; therefore, each reporting jurisdiction submits one set of arrest data for each person per single apprehension. The arrest data will clear single or multiple offenses in the same incident and/or multiple incidents. Arrests on warrants issued by another jurisdiction is reported by the originating agency, not the arresting agency.

Idaho Law Enforcement Employee Information

Rate per 1,000 Population	
Sworn Officers	Total Personnel
1.9	2.7

The Uniform Crime Reporting (UCR) program collects annual data on law enforcement employees from participating agencies. Data is categorized as a law enforcement sworn officer or a civilian employee.

Law enforcement officers consists of all full-time, sworn personnel with full arrest powers, which includes the sheriff and deputies, constables, marshals, chiefs and members of the police force, and other officers whose duties are to enforce and preserve the public peace. Although full time civilian employees and jailers may be sworn personnel and are paid from law enforcement funds, if they do not engage in other law enforcement functions, such as patrol, they are not included in the sworn officer count.

Civilian employees include full time personnel such as radio dispatchers, records personnel, meter attendants, stenographers, and mechanics whose duties serve as support for law enforcement officers. Full time employees who perform support and jail functions should be counted under the civilian employee category.

In addition to the national UCR program and for Idaho law enforcement administrative purposes, full time jail employee count is provided separately in this section.
