Foreword

It is my privilege to present the 2025 Crime in Idaho Report, an important resource that provides insight into crime trends, public safety challenges, and the continued efforts of law enforcement agencies across our great state. This report represents the dedication and collaboration of professionals who work every day to protect Idaho communities and ensure a safer future for all.

As Director of the Idaho State Police, I encourage every Idaho citizen to take the time to become informed about the information contained within this report. Understanding the data, recognizing trends, and being aware of the challenges facing our communities allows us to have meaningful conversations about public safety. A well-informed public is an essential partner in building stronger, safer communities.

The Crime in Idaho Report is more than a collection of statistics. Behind every number is a person, a family, a community, and a story. The information contained in this report helps us better understand where we have made progress, where challenges remain, and where we must continue to focus our efforts. It provides valuable information that guides decision-making,

strengthens partnerships, and supports efforts to prevent and reduce crime.

Public safety is a shared responsibility. No single agency or organization can accomplish this mission alone. This report serves as a valuable tool for law enforcement agencies throughout Idaho to collaborate, share knowledge, identify emerging issues, and develop strategies that improve the safety and security of the citizens we serve. By working together—state, county, local, and tribal law enforcement agencies—we can continue to build partnerships that make Idaho a safer place to live, work, and raise a family.

I want to recognize and thank the many individuals who contributed to the preparation of this report. Their commitment to accuracy, transparency, and service reflects the professionalism and dedication that define Idaho's public safety community.

The Idaho State Police remains committed to providing reliable information, supporting our law enforcement partners, and serving as a trusted resource for the citizens of Idaho. I invite you to review this report, engage with the information, and join us in our shared mission of making Idaho one of the safest states in the nation.

Together, through partnership, awareness, and service, we will continue to protect the communities we are honored to serve.

Sincerely,

Idaho's Uniform Crime Reporting Program

Since 1974, Idaho has participated in the National Uniform Crime Reporting (UCR) Program. This program is a nationwide statistical collaboration designed to collect accurate crime data from all law enforcement agencies in a “uniform” manner. The Idaho UCR Program adopted the expanded and enhanced method of crime reporting, National Incident-Based Reporting System (NIBRS), in 1991. Reporting definitions, rules, and guidelines are based on the Criminal Justice Information Services Division, Law Enforcement Engagement and Data Sharing Section, Crime and Law Enforcement Statistics Unit, Uniform Crime Reporting Program, and National Incident-Based Reporting System User Manual, provided by the U.S. Department of Justice and Federal Bureau of Investigation.

Objectives: The program’s primary objective is to provide a reliable set of criminal statistics for law enforcement purposes. Law enforcement administrators can utilize these statistics for operational use, such as determination of workforce and training needs, proper focus of enforcement efforts and deterrence programs, budgets, and grant proposals. Furthermore, these statistics can provide valuable information to assist law enforcement in identifying specific crime activity facing law enforcement, such as juvenile crime, domestic violence, child abuse, crime motivated by hate, property crime, and drug/alcohol related crime.

The program’s secondary objective is to inform all government officials and the public as to the nature of the crime problems in Idaho, its magnitude and trends. Historically, statistics generated from this collection of crime data have proven to be a vital resource to legislators, educators, municipal planners, criminologists, media, advocate groups, and other public and private agencies involved with criminal justice throughout our country.

Verification Procedures: An obvious concern in the collection of crime statistics is the validity and uniformity of the data received. Uniform guidelines and statewide training are available to all contributors. Each incoming report is examined for mathematical accuracy and, perhaps of even more importance, for reasonableness as a possible indication of errors. Adjustments or unusual variations are brought to the attention of the submitting agency and, if necessary, corrections are made.

Considerations for Interpretation: Crime activity in a particular community can be deceiving unless specific factors are examined and taken into consideration before conclusions are made. Some conditions affecting the type and volume of crime are:

- * population size, density, and degree of urbanization
- * population variations in composition and stability
- * economic conditions and employment availability
- * cultural factors and educational, recreational, and religious characteristics
- * effective strength of the police force
- * administrative and investigative emphases of law enforcement
- * prosecutorial, judicial, and/or correctional policies
- * values established by family, community, and society in general
- * citizen's attitude toward crime and police
- * crime reporting practices of citizens

Idaho's Uniform Crime Reporting Program

Conditions for State Participation in the National UCR Program: Outlined in the National Incident-Based Reporting Program User Manual are the following conditions which a state program must operate under:

1. A UCR Program must conform to the National UCR Program's submission standards, definitions, specifications, and required deadlines.
2. A UCR Program must establish data integrity procedures and have personnel assigned to assist contributing agencies in quality assurance practices and crime reporting procedures.
3. A UCR Program's submissions must cover more than 50 percent of the LEAs within its established reporting domain and be willing to cover any and all UCR-contributing agencies that wish to use the UCR Program from within its domain. (An agency wanting to become a UCR Program must be willing to report for all of the agencies within the state.)
4. A UCR Program must furnish the FBI's UCR Program with all of the UCR data collected by the LEAs within its domain.

Submission Options: Each law enforcement agency is responsible for compiling and submitting their crime data to the UCR program of the Idaho State Police, Bureau of Criminal Identification. State submission options available to Idaho law enforcement agencies are: online entry utilizing the Idaho State Police Uniform Crime Reporting System; data file submission from a records management system for incident-based reporting.

Method of Collection: The National UCR Program is administered by the Federal Bureau of Investigation (FBI). Crime reporting on the national level is currently accepted under two methods, summary-based and incident-based. **For uniform purposes, Idaho law enforcement agencies report only under the FBI's incident-based reporting method.** The summary-based method collects the following: Part 1 offense and arrest data, which consists of eight (8) specific crimes; arrest data only for Part 2 offenses. The incident-based method collects the following: Group "A" offense and arrest data, which includes 24 Group A crime categories made up of 52 Group A offenses; arrest data only on 10 Group "B" offenses.

Data Count: Incident-based reporting requires a report to be submitted after preliminary confirmation of a call for service or a complaint establishes that a crime was, in fact, committed. Within a single incident report, all reportable offenses, victims, property, suspect/offender, and arrestee data are submitted. Offenses are categorized by crimes against persons, property, and society. Crimes against persons are counted by each victim within an incident (i.e., three victims of murder committed at the same time and place calculate to three offenses of murder). Crimes against property and society are counted by each distinct incident (i.e., three victims of vandalism committed at the same time and place calculate to one offense of vandalism).

Consider the method of reporting when comparing Idaho crime counts with another state. Incident based reporting, unlike summary-based reporting, counts up to ten different offenses committed within a single crime incident. Summary-based reporting counts only one offense per incident. Due to the increase of the reportable offenses, the total crime counts and crime rates will be higher based on Group "A" crime vs. Part 1 crime.

Arrest data represents the number of persons arrested, not on charges lodged. One set of arrest data is submitted per person, per single apprehension, which will clear one or more offenses within the same incident and/or multiple incidents. The reporting agency determines the most serious offense and reports it as the arresting offense.

Participating agencies should only report those arrests for offenses committed within their own jurisdiction. Likewise, agencies should only report property recovered on items stolen from their own jurisdiction. Traffic violations, except for driving under the influence (DUI), hit and run (of a person), and vehicular manslaughter, are not collected under the UCR program.

Clearance: Under the NIBRS reporting guidelines, offenses are considered "cleared" when at least one offender is arrested for a crime or the reporting agency clears the offenses by exceptional means.

Arrest data is submitted on those persons processed by an arrest (detained with the intention of seeking charges), citation, or summons for committing an offense within the reporting jurisdiction. Juvenile arrests are counted when the circumstances are such that if he or she were an adult, an arrest would be reported. Police or official action not taken beyond a mere interview or warning should not be reported.

An exceptional clearance can only be taken when at least one offender is positively identified (exact age, sex, and race), sufficient probable cause to support an arrest or charge exist, offender's location is known so that an arrest could be made, and a physical arrest is not possible due to specific circumstances outside the control of law enforcement. Those specific circumstances are limited to: death of the offender, prosecution declined, victim refused to cooperate, juvenile/no custody, or extradition denied.

A crime report status of inactive or cases closed does not necessarily "clear" offenses. Unfounded reports, those deemed to be false, without merit, or in fact did not occur, are not counted.

The crime clock should be viewed with care. Being the most aggregate representation of the UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Group "A" offenses. This mode of display should not be taken to imply a regularity in the commission of the offenses, rather, **it represents the annual ratio of crime to fixed time intervals.**

2025 Idaho Statewide Crime Profile

Group A Crime

The term Group "A" offenses is utilized under the National Incident-Based Reporting System (NIBRS) program guidelines to identify reportable offenses committed within a crime incident. An "incident" is defined as one or more offenses committed at the same time and place by the same offender, or group of offenders that are aware of, and consent to, or assist in the commission of the crime(s). Within a single incident, up to ten distinct crime offenses are reportable.

State statutes must be very specific in defining crimes so that persons facing prosecution will know the exact charges being placed against them. For reporting purposes, crime classifications are generically defined to provide a common denominator for which crime data can be uniformly measured by local, state, and federal law enforcement agencies. Therefore, nonconforming offenses outlined under Idaho state statutes should be reported according to the NIBRS definitions.

Kidnapping

- The unlawful seizure, transportation, and/or detention of a person against his/her will, or a minor without the consent of his/her parent(s) or legal guardian -

Although the object of a kidnapping may be to obtain money or property, kidnapping is a crime against persons. This offense includes not only kidnapping and abduction, but hostage taking as well. This category is intended to capture information on only the persons actually kidnapped or abducted, not those persons or organizations paying ransoms. Therefore, for each offense of kidnapping, the victims are only the persons taken or detained against their will.

- The theft of a motor vehicle -

A motor vehicle is defined for UCR purposes as a self-propelled vehicle that runs on land surface and not on rails, and whose primary purpose is to transport persons. Motorcycles, scooters, snowmobiles, golf carts, etc. are categorized under 'other motor vehicles.' Recreational vehicles are specifically designed to transport people and also provide them temporary lodging for recreational purposes. Tractors, farm and industrial equipment, and lawn mowers are not considered 'motor vehicles,' as their main purpose is not to transport persons. Motor vehicle theft includes the offense of 'joy riding.'

The term "arrest" is defined as a physical arrest, citation or served summons. This data represents the number of persons arrested, not on charges lodged; therefore, each reporting jurisdiction submits one set of arrest data for each person per single apprehension. One set of arrest data will clear single or multiple offenses in the same incident and/or multiple incidents. Arrests on warrants issued by another jurisdiction are reported by the originating agency, not the arresting agency.

All persons arrested for the commission of a Group "A" or Group "B" crime are included in this count. Group "B" crime, which is only reported on the arrest level, encompasses offenses which are not under the Group "A" category. Excluded from this count are any traffic related arrests, with the exception of Driving Under the Influence (DUI), Hit and Run (of a person), and Vehicular Manslaughter.

Idaho was one of the first twelve states to pass legislation regarding malicious harassment. Idaho Code 18-7902 and 67-2915 depict policy on hate crime, its collection and reporting. Idaho gathers hate crime information as an additional element and/or characteristic of the offenses reported by law enforcement.

Hate crime incidents are identified on the subjective motivation of the offender(s). Law enforcement investigations solely determine the sufficient objective facts to lead to a reasonable and prudent conclusion that the offender's actions were motivated by bias against a racial, religious, ethnic/national origin, mental/physical disability, or sexual orientation group.

Accurate data collection for hate crime depends heavily on proper training of law enforcement to recognize such incidents and the cooperation and desire of law enforcement communities to report these offenses without the influence of special interest groups, media, and politics.

Training material for recognizing and reporting hate crime has been distributed to all law enforcement departments.

Information derived from the following indicators can establish supportive facts to correctly identify hate bias motivation.

- Bias-related drawings, markings, symbols, or graffiti were left at the crime scene.
- Bias-related oral comments, written statements, or gestures made by the offender which indicate his/her bias.
- The incident coincided with a holiday relating to, or a date of particular significance to, a race, religion, disability, ethnicity, or sexual-orientation.
- The offender and the victim were of different race, religion, ethnicity, or sexual-orientation.
- Certain objects, items, or things which indicate bias were used in the commission of the crime.
- The victim is a member and/or engaged in activities promoting a racial, religious, disability, ethnic, or sexual-orientation group.
- Several incidents occurred in the same locality, at or about the same time, and the victims were all of the same race, religion, disability, ethnicity, or sexual-orientation.

Law Enforcement Officers Assaulted

Idaho Peace Officers Memorial. By Chiu-yi Lin.

In Memoriam

These pages record FBI-defined crime data to measure the challenges facing law enforcement across Idaho. In addition, we want to recognize the importance of those who serve in the wider community of emergency responders who answer the call each day.

On June 29, 2025, many first responders were called to service for an incident near Coeur d'Alene that ended in tragedy. We will always remember Battalion Chiefs Frank Harwood and John Morrison, who gave their lives in the line of duty that day. We also honor Engineer David Tysdal, who was critically injured during the incident. We are also grateful for the heroic efforts of all who answered the call with these brave individuals.

The Law Enforcement Officers Killed and Assaulted (LEOKA) data collection accounts for losses within law enforcement, and while firefighters fall outside that count, their sacrifice is felt no less deeply.

Today the ambitious young person who considers a career in law enforcement must also consider the risk of being killed or assaulted by a member of the society they are sworn to protect.

This data collection is for officers killed or assaulted, and includes aggravated assaults which result in serious injury, or in which a weapon was used that could have caused serious injury or death. The reporting of simple assault incidents are excluded where mere verbal abuse or minor resistance to an arrest exist. Deaths in the line of duty that are not felonious, intentional acts against officers are not included in these crime statistics.

In an effort to depict the nature and volume of crime in a particular community and avoid data being reported more than once, jurisdictional reporting guidelines are established for law enforcement agencies participating in the Uniform Crime Reporting Program.

- City law enforcement agencies report offenses that occur within their city limits.
- County and state law enforcement agencies report offenses that occur outside the city limits.
- When two or more law enforcement agencies respond and/or are involved in an investigation of the same offense, or share respective jurisdictions under agreement, the 'primary' or 'lead' investigative agency will report the incident.
- Agencies report only those arrests made for offenses committed within their own jurisdictions.
- Recovery of property is reported only by the agency that first reported it missing and/or stolen, regardless of who or what agency recovered it.
- If an agency refers an investigation to another law enforcement agency, the original reporting of the incident is transferred to the receiving agency, unless otherwise specified by an agreement between the agencies.
- Federal agencies report offenses within their investigative jurisdictions if they are not being reported by a local/state law enforcement agency.

Idaho Law Enforcement Employee Information

Rock Creek Ranch, ID. By Cathy Thomas of Blaine CSO.

2025 Law Enforcement Employee Information

Idaho Statewide Information

Actual counts represent the number of positions filled as of October 31, 2025, and may not match the number of positions authorized for an agency.

Law enforcement officers consist of all full-time, sworn personnel with full arrest powers, which includes the sheriff and deputies, constables, marshals, troopers, chiefs and members of the police force, and other officers whose duties are to enforce and preserve the public peace.

Although full time civilian employees and jailers may be sworn personnel and are paid from law enforcement funds, if they do not engage in other law enforcement functions, such as patrol, they are not included in the sworn officer count.

Civilian employees include full-time personnel such as radio dispatchers, records personnel, meter attendants, stenographers, mechanics, and jailers paid from law enforcement funds, whose duties serve as support for law enforcement agencies.

In addition to the national UCR program and for Idaho law enforcement administrative purposes, a count of full-time jail employees paid from a separate budget is provided separately in this section.
