Foreword

I am pleased to forward to you the 2001 edition of "Crime in Idaho," which is the compilation of Uniform Crime Reporting data supplied by Idaho's law enforcement agencies at the local and state levels.

Contained in this publication is information about the nature and volume of crime in our State. The document's accuracy continues to be dependent upon the information provided by the contributors.

Statistical information depicts offenses reported to law enforcement after confirmation of a call for service or complaint clearly indicates the commission of a crime. However, it does not reflect dispositions by a coroner, prosecutor, or court.

This publication is prepared with the hope of providing a valuable tool to assist law enforcement against crime. It should also prove to be a vital resource to legislators, researchers, educators, and other public and private agencies involved with criminal justice in Idaho.

The success and viability of this publication is the direct result of a joint venture between the Idaho State Police and all contributors. The collection and publication of crime statistics increases awareness for all citizens and establishes a greater understanding of the problems facing law enforcement. We remain fully committed to working closely with the criminal justice community and all concerned citizens on addressing the problems associated with criminal activity in our State.

If you have any questions or comments regarding "Crime in Idaho," I encourage you to contact Idaho State Police, Bureau of Criminal Identification, Uniform Crime Reporting Unit at (208) 884-7155.

Idaho Uniform Crime Reporting Participants in 2001

Idaho State Police units of patrol and investigations submit crime data under the Idaho Uniform Crime Reporting program. A special note of acknowledgment and gratitude is extended to the local law enforcement agencies listed below for their participation. Idaho's crime reporting success is greatly attributed to their dedication in providing accurate and complete crime data.

Population Coverage: Crime data, reported by 105 Idaho law enforcement agencies, represent 98% of the population of Idaho for the year 2001; therefore, statewide rates are calculated on an adjusted population base of 1,305,535.

Population figures for reporting agencies are furnished by the U.S. Census Bureau.

Idaho Uniform Crime Reporting Program

Since 1974, Idaho has participated in the National Uniform Crime Reporting (UCR) Program. This program is a nationwide statistical collaboration designed to collect accurate crime data from all law enforcement agencies in a “uniform” manner. The Idaho UCR Program adopted the expanded and enhanced method of crime reporting, National Incident Based Reporting System (NIBRS), in 1991. Reporting definitions, rules, and guidelines are based on the Uniform Crime Reporting Handbook, NIBRS Edition, provided by the U.S. Department of Justice, Federal Bureau of Investigation.

Objectives: The program’s primary objective is to provide a reliable set of criminal statistics for law enforcement purposes. Law enforcement administrators can utilize these statistics for operational use, such as determination of manpower and training needs, proper focus of enforcement efforts and deterrence programs, budgets, and grant proposals. Furthermore, these statistics can provide valuable information to assist law enforcement in identifying specific crime activity facing law enforcement, such as juvenile crime activity, domestic violence, child abuse, crime motivated by hate, property crime, and drug/alcohol related crime.

The program’s secondary objective is to inform all government officials and the public as to the nature of the crime problems in Idaho, its magnitude and trends. Historically, statistics generated from this collection of crime data have proven to be a vital resource to legislators, educators, municipal planners, criminologists, media, advocate groups, and other public and private agencies involved with criminal justice throughout our country.

Verification Procedures: An obvious concern in the collection of crime statistics is the validity and uniformity of the data received. Uniform guidelines and statewide training is available to all contributors. Each incoming report is examined for mathematical accuracy and, perhaps of even more importance, for reasonableness as a possible indication of errors. Adjustments or unusual variations are brought to the attention of the submitting agency and, if necessary, corrections are made.

Considerations for Interpretation: Crime activity in a particular community can be deceiving unless specific factors are examined and taken into consideration before conclusions are made. Some conditions affecting the type and volume of crime are:

- * population size, density, and degree of urbanization
- * population variations in composition and stability
- * economic conditions and employment availability
- * cultural factors and educational, recreational, and religious characteristics
- * effective strength of the police force
- * administrative and investigative emphases of law enforcement
- * prosecutorial, judicial, and/or correctional policies
- * values established by family, community, and society in general
- * citizens’ attitude toward crime and police
- * crime reporting practices of citizens

Crime Data Collection Authority: Idaho Code 67-3006 states: “A law enforcement agency shall submit to the department, at the time, in the manner, and in the form prescribed by the department, data regarding crimes committed within that agency’s jurisdiction. The department shall publish an annual report, available no later than July 1 of the following year, containing the statistical information gathered under this section that relates to the number and nature of criminal offenses, arrests, and clearances, and any other data the director determines to be appropriate relating to the method, frequency, cause and prevention of crime.”

Idaho Code 67-2915 states: “All city, county and state law enforcement units shall be required to report to the director all incidences of, complaints on, and arrests for malicious harassment (definition reference Idaho Code 18-7902) crimes within their respective jurisdictions. The director shall develop a standard procedure and shall prescribe and provide a standard form for complete and uniform reporting.”

Conditions for State Participation in the National UCR Program: Outlined in the UCR Handbook NIBRS Edition are the following conditions which a state Program must operate under: “1) The state must conform to the national UCR Program’s standards, definitions, and information requirements; 2) The state criminal justice agency must have a proven, effective, statewide UCR Program and have instituted acceptable quality control procedures; 3) Coverage within the state by a state agency must be, at least, equal to that attained by the national UCR Program; 4) The state agency must have adequate field staff assigned to conduct audits and to assist contributing agencies in record practices and crime reporting procedures; 5) The state agency must furnish to the FBI all of the detailed data regularly collected by the FBI in the form of duplicate returns, computer printouts, and/or magnetic tapes; 6) The state agency must have the proven capability to supply all the statistical data required in time to meet national UCR publication deadlines.”

Method of Collection: The national UCR program is administered by the Federal Bureau of Investigation (FBI). Crime reporting on the national level is accepted under two methods. Summary-based method collects the following: Part 1 offenses and arrests data, which consists of 8 specific crimes; arrest data only for Part 2 offenses. The National Incident Based Reporting System (NIBRS) method collects the following: Group A offenses and arrests data, which includes an additional 22 offenses in conjunction with the Part 1 crime; arrest data only on Group B offenses.

NIBRS is the methodology used by 100% of the Idaho UCR participating law enforcement agencies. Each agency is responsible for compiling and submitting their crime data to the UCR unit of the Idaho State Police, Bureau of Criminal Identification. State submission options available to Idaho law enforcement agencies are: on-line entry utilizing the Idaho Law Enforcement Telecommunications System (ILETS); or data file submission from a records management system which has acquired state approval for NIBRS reporting; or submit hard copy NIBRS form which is limited to agencies with less than 50 reportable incidents a month.

Data Count: NIBRS offenses are categorized by crimes against persons, property, and society. Crimes against persons are counted by each victim within an incident (i.e., three victims of murder committed at the same time and place calculate to three offenses of murder). Crimes against property and society are counted by each distinct incident (i.e., three victims of vandalism committed at the same time and place calculate to one offense of vandalism).

Group “A” Offenses			Group “B” Offenses (reported only when an arrest is made)
Crimes Against Persons	Crimes Against Property	Crimes Against Society	
Murder Negligent Manslaughter Forcible Rape Forcible Sodomy Sexual Assault w/Object Forcible Fondling Aggravated Assault Simple Assault Intimidation Kidnaping Incest Statutory Rape	Robbery Burglary/Breaking & Entering Larceny/Theft Offenses Motor Vehicle Theft Arson Destruction of Property Counterfeiting/Forgery Fraud Offenses Embezzlement Extortion/Blackmail Bribery Stolen Property Offenses	Drug/Narcotic Violations Drug Equipment Violations Gambling Offenses Pornography Prostitution Offenses Weapon Law Violations	Bad Checks Curfew/Loitering/Vagrancy Disorderly Conduct DUI Drunkenness Nonviolent Family Offenses Liquor Law Violations Peeping Tom Trespass of Real Property All Other Offenses Runaways - (not a crime, only reported when law enforcement apprehends juvenile)

Consider the method of reporting when comparing Idaho crime counts with another state. NIBRS, unlike Summary-based reporting, counts up to ten different offenses committed within a single crime incident. Summary-based reporting counts only one offense per incident. Due to the increase of reportable offenses, the total crime counts and crime rates will be higher in a NIBRS reporting state as compared to a Summary-based reporting state.

Arrest data represents the number of persons arrested, not on charges lodged. One set of arrest data is submitted per person per single apprehension. One arrest count can clear several offenses within the same incident and/or multiple incidents. The reporting agency determines the most serious offense and reports it as the arresting offense. Participating agencies should only report those arrests for offenses committed within their own jurisdiction. Traffic violations, except for DUI, Hit and Run (of a person), and Vehicular Manslaughter, are not collected under the UCR program.

Clearance: Under the NIBRS reporting guidelines, offenses are considered “cleared” when at least one offender is arrested for a crime or the reporting agency clears the offenses by exceptional means. An exceptional clearance can only be taken when at least one offender is positively identified (exact age, sex, and race), sufficient probable cause to support an arrest or charge exist, offenders’ location is known so that an arrest could be made, and a physical arrest is not possible due to specific circumstances outside the control of law enforcement. Those specific circumstances are limited to: death of the offender, prosecution declined, victim refused to cooperate, juvenile/no custody, or extradition denied.

Crime report status of inactive or case closed does not necessarily “clear” offenses. Unfounded reports, those deemed to be false, without merit, or in fact did not occur are not counted.

The crime clock should be viewed with care. Being the most aggregate representation of the UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Group "A" Offenses. This mode of display should not be taken to imply a regularity in the commission of the offenses, rather, it represents the annual ratio of crime to fixed time intervals.

Group "A" Crime Reported in Idaho for 2001

The term Group "A" offenses is utilized under the National Incident Based Reporting System (NIBRS) program guidelines to identify reportable offenses committed within a crime incident. Up to ten distinct crime offenses committed at the same time and place by the same offender, or group of offenders that are aware of, and consent to, or assist in the commission of the crime(s) are reported. NIBRS crime classifications are generically defined to provide a common denominator for which crime data can be uniformly measured by local, state, and federal law enforcement agencies. The reporting of Group "A" offenses has no bearing on whether an arrest or an exceptional clearance is possible.

2001 Idaho Urban/Rural Crime

The U.S. Bureau of the Census defines urban as incorporated cities with a population of 2,500 or more. Rural is defined as cities with a population less than 2,500 and unincorporated county areas. County areas adjacent to a large city and with a population density of at least 1,000 persons per square mile may be considered urban based on percentage of urban/rural. The Idaho Department of Commerce provided data indicating the urbanized areas by reporting jurisdiction. Population figures, released March 2001 from the U.S. Bureau of the Census, are based on the April 2000 census. Data count distribution is based on the percentage of urban/rural ratio of each crime reporting jurisdiction.

Kidnaping/Abduction

Definition

- The unlawful seizure, transportation, and/or detention of a person against his/her will, or a minor without the consent of his/her custodial parent(s) or legal guardian -

Although the object of a kidnap may be to obtain money or property, kidnaping is a crime against persons. This offense includes not only kidnaping and abduction, but hostage taking as well. This category is intended to capture information on only the persons actually kidnaped or abducted, not those persons or organizations paying ransoms. Therefore, for each offense of kidnaping, the victims are only the persons taken or detained against their will.

Motor Vehicle Theft

Definition
- The theft of a motor vehicle -

A motor vehicle is defined for UCR purposes as a self-propelled vehicle that runs on land surface and not on rails, and whose primary purpose is to transport persons. Motorcycles, scooters, snowmobiles, golf carts, etc. are categorized under "other motor vehicles." Recreational vehicles are specifically designed to transport people and also provide them temporary lodging for recreational purposes. Tractors, farm and industrial equipment, and lawn mowers are not considered "motor vehicles," as their main purpose is not to transport persons. Motor vehicle theft includes the offense of "joy riding."

Counterfeiting/Forgery

Definition

- The altering, copying, or imitation of something, without authority or right, with the intent to deceive or defraud by passing the copy or thing altered or imitated as that which is original or genuine; or the selling, buying, or possession of an altered, copied, or imitated thing with the intent to deceive or defraud -

The data collection objective for this offense is to identify what type of item was counterfeited or forged. Nonnegotiable items, such as checks, money orders, traveler's checks, which are not endorsed are reported with a zero value, as these documents require further action to become negotiable.

Crimes Against Society

"If one would discern the centers of dominance in any society, one need only look to its definitions of "virtue" and "vice" or "legal" and "criminal," for in the strength to set standards resides the strength to maintain control."

Statewide Arrest Profile

"The generality of men are naturally apt to be swayed by fear rather than reverence, and to refrain from evil because of the punishment that it brings rather than because of its own foulness"...Aristotle

Idaho Arrests in 2001

The term "arrest" is defined as a physical arrest, citation or served summons. This data represents the number of persons arrested, not on charges lodged; therefore, each reporting jurisdiction submits one set of arrest data for each person per single apprehension. One set of arrest data will clear single or multiple offenses in the same incident and/or multiple incidents. Arrests on warrants issued by another jurisdiction are reported by the originating agency, not the arresting agency.

All persons arrested for the commission of a Group "A" or Group "B" crime are included in this count. Group "B" crime, which is only reported on the arrest level, encompasses offenses which are not under the Group "A" category. Excluded from this count are any traffic related arrests, with the exception of DUI, Hit and Run (of a person), and Vehicular Manslaughter.

Under the UCR guidelines, a juvenile is counted as "arrested" when the circumstances are such that if the juvenile were an adult, an arrest would have been reported. Any situation involving a juvenile, in lieu of an actual arrest, is summoned, cited, or notified to appear before a juvenile court or similar authority for a violation of the law is reported as an arrest.

Hate Crime in Idaho

"Morally, we all recognize hate as an evil, and we have long struggled as a society to understand hate as a sickness, but legally we must increasingly confront hate as a vicious breaking of the law" ...Attorney General Dick Thornbury

Hate Crime in Idaho for 2001

Definition

- A criminal offense committed against a person or property which is motivated in whole or in part, by the offender's bias against a race/national origin, religion, sexual-orientation, mental/physical disability or ethnicity -

Hate Crime Incidents	33
Change from 2000	-24.4%

Total Arrests	11

Idaho was one of the first twelve states to pass legislation regarding malicious harassment. Idaho Code 18-7901, 18-7902, 18-7903 and 67-2915 depict policy on hate crime, its collection and reporting. Uniform Crime Reporting gathers hate crime information as an additional element and/or characteristic of the offenses reported.

Hate crime incidents are identified on the subjective motivation of the offender(s). Law enforcement investigations solely determine the sufficient objective facts to lead a reasonable and prudent conclusion that the offender's actions were motivated by bias against a racial, religious, ethnic/national origin, mental/physical disability, or sexual-orientation group. Information derived from the following indicators can establish supportive facts to correctly identify hate bias motivation.

- * Bias-related drawings, markings, symbols, or graffiti were left at the crime scene.
- * Bias-related oral comments, written statements, or gestures made by the offender which indicate his/her bias.
- * The incident coincided with a holiday relating to, or a date of particular significance to, a race, religion, disability, ethnicity, or sexual-orientation.
- * The offender and the victim were of different race, religion, ethnicity, or sexual-orientation.
- * Certain objects, items, or things which indicate bias were used in the commission of the crime.
- * The victim is a member and/or engaged in activities promoting a racial, religious, disability, ethnic, or sexual orientation group.
- * Several incidents occurred in the same locality, at or about the same time, and the victims were all of the same race, religion, disability, ethnicity, or sexual-orientation.

Accurate data collection for hate crime depends heavily on proper training of law enforcement to recognize such incidents and the cooperation and desire of law enforcement communities to report these offenses without the influence of special interest groups, media, and politics. Training material for recognizing and reporting hate crime have been distributed to all law enforcement departments. Training is given each year in conjunction with the UCR/NIBRS training sessions throughout the State. Additional training is offered by the Federal Bureau of Investigation.

★ = 50% of victims of hate crimes againsts persons knew the offender(s).

★ = 21.2% hate crime incidents were committed by multiple offenders.

Idaho Law Enforcement Officers Assaulted

"It is critical to recognize that the constitution does not require officers to assume greater risks than those inherent in the job" ... Supreme Court

Idaho Law Enforcement Officers Assaulted in 2001

Officers Assaulted	210
Change from 2000	-0.9%
Cleared Incidents	91.9%

The killing or assault of law enforcement officers is an increasingly serious problem faced by law enforcement administrators and should be of the gravest concern to the public at large. Today the ambitious young person who considers a career in law enforcement must also consider the risk of being killed or assaulted by a member of the society they are sworn to protect.

Assaults on law enforcement officers are collected under the UCR program on sworn officers only. Reportable assaults, which include aggravated assault, simple assault, and intimidation offenses, should result from a serious injury, use of a weapon, or action involving more than mere verbal abuse or minor resistance to an arrest.

★ = City law enforcement agencies report offenses that occur within their city limits.

★ = County and state law enforcement agencies report offenses that occur outside the city limits.

★ = When two or more law enforcement agencies respond and/or are involved in an investigation of the same offense, or share respective jurisdictions under agreement, the "primary" or "lead" investigative agency will report the incident.

★ = Agencies report only those arrests made for offenses committed within their own jurisdictions.

★ = Recovery of property is reported only by the agency that first reported it missing and/or stolen, regardless of who or what agency recovered it.

★ = If an agency refers an investigation to another law enforcement agency, the original reporting of the incident is transferred to the receiving agency, unless otherwise specified by an agreement between the agencies.

★ = Federal agencies report offenses within their investigative jurisdictions if they are not being reported by a local/state law enforcement agency.

Idaho Law Enforcement Employee Information

Total Sworn Officers	2,432
Change from 1999	2.4%
Rate* per 1,000	1.9

The Uniform Crime Reporting (UCR) program collects annual data on law enforcement employees from participating agencies. Data is categorized as a law enforcement sworn officer or a civilian employee. Actual counts represent the number of positions filled as of October 31, 2001, and may not match the number of positions authorized for an agency.

Law enforcement officers consist of all full-time, sworn personnel with full arrest powers, which includes the sheriff and deputies, constables, marshals, chiefs and members of the police force, and other officers whose duties are to enforce and preserve the public peace. Although full time civilian employees and jailers may be sworn personnel and are paid from law enforcement funds, if they do not engage in other law enforcement functions, such as patrol, they are not included in the sworn officer count.

Civilian employees include full time personnel such as radio dispatchers, records personnel, meter attendants, stenographers, mechanics, and jailers paid from law enforcement funds, whose duties serve as support for law enforcement agencies.

In addition to the national UCR program and for Idaho law enforcement administrative purposes, a count of fulltime jail employees paid from a separate budget is provided separately in this section.

GLOSSARY OF TERMS AND ABBREVIATIONS

All terms and abbreviations in the publication are for Uniform Crime Reporting (UCR) purposes.

Adjusted population base - statewide population figure is adjusted to reflect only the crime reporting jurisdictions. Population base is used to calculate rates per capita.

Adult - a person 18 years of age or older.

Agency - an Idaho police department, sheriff's office or state police.

Arrest - a person physically apprehended, cited or served with a summons related to a reportable offense.

Arrest Rate - the number of arrests reported for each unit of population.

B & E - breaking and entering into a structure.

Cleared - indication of an arrest or exceptional status for offenses committed within a reportable crime incident.

Clearance Rate - the percentage of reported offenses cleared.

Cleared by Arrest - indicating at least one person involved in the commission of the reported incident is arrested.

Cleared by Exceptional Means - indicating specific circumstances in which law enforcement has: 1) definitely established the identity of the offender, 2) enough information to support an arrest, 3) obtained in their knowledge, the exact location of the offender so the subject could be taken into custody, 4) **and yet** reasons outside of their control precludes an arrest. Those reasons are limited to: a) death of the offender, b) prosecution declined, c) extradition denied, d) victim refused to cooperate, or e) juvenile/ no custody.

Co SO - county sheriff's office

County Total - represents all the reporting agencies within a designed geographic area.

Crime Rate - represents the number of Group "A" offenses reported for each unit of population.

Crimes Against Persons/Property/Society - NIBRS offenses are divided into specific categories. Crimes Against Persons is based on those crimes whose victims are always "individual." Crimes Against Property is based on the main criminal objective to obtain money, property, or some other benefit. Crimes Against Society represents certain types of criminal activity prohibited by our society.

Distribution - percentage of variables related to each other within a specific grouping.

DPS - department of public safety.

Ethnicity - indicates ethnic origin, regardless of race, as either Hispanic (a person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin) or not Hispanic. Categories adopted from the Statistical Policy Handbook published by the Office of Federal Statistical Policy and Standards, U.S. Department of Commerce.

Family Relationship - a category to reflect the relationship of the victim to the offender in which members are related by blood or marriage. This category includes: spouse, child, parent, sibling, stepchild, stepparent, stepsibling, grandparent, grandchild, in-law, and other family.

Group "A" Offenses - 30 crime categories selected under the UCR NIBRS reporting method for which offense and arrest data is collected from participating law enforcement agencies.

Group "A" Crime Rate - the total Group "A" crime offenses reported divided by statewide adjusted population base multiplied by 100,000 inhabitants.

Group "B" Offenses - 11 additional categories selected under the UCR NIBRS reporting method for which only arrestee data is collected from participating law enforcement agencies.

Incident - one or more offenses committed by the same offender, or group of offenders acting in concert, at the same time and place. Acting in concert requires all offenders to be aware of and consent to, or if nonconsenting, their actions assist in the commission of the crime.

Intimate Relationship - a category to reflect the relationship of the victim to the offender in which two individuals have or have had an intimate relationship with one another. This category includes: spouse, commonlaw spouse, ex-spouse, boy/girlfriend, and homosexual relationship.

Jurisdiction - geographical area designated to a specific law enforcement agency.

Juvenile - a person under 18 years of age.
