CRIME IN IDAHO
2010
The 2010 Crime in Idaho, issued by the Idaho State Police, Bureau of Criminal Identification, Uniform Crime Reporting (UCR) Section, on July 1, 2011. Pennie M. Blamires, Crime Data Reporting Analyst, directed the project. Questions and/or comments related to this publication are welcome at the address listed above, (208)884-7156, fax (208)884-7193, or e-mail address: pennie.blamires@isp.idaho.gov.

Costs associated with this publication are available in accordance with section 60-202, Idaho Code.
I am pleased to forward to you the 2010 edition of *Crime in Idaho*, which is the compilation of Uniform Crime Reporting data supplied by Idaho’s law enforcement agencies at the local and state levels.

Contained in this publication is information about the nature and volume of crime in our State. The document’s accuracy continues to be dependent upon the information provided by the contributors.

Statistical information depicts offenses reported to law enforcement after confirmation of a call for service or a complaint clearly indicating the commission of a crime. However, it does not reflect dispositions by a coroner, prosecutor, or court.

This publication is prepared as a valuable tool to assist law enforcement administrators in determining their priorities in the fight against crime. It also is a vital resource to legislators, researchers, educators, and other public and private agencies involved with criminal justice in Idaho.

This publication is the direct result of a joint venture between the Idaho State Police and all contributors. The collection and publication of crime statistics increases awareness for all citizens and establishes a greater understanding of the problems facing law enforcement. The Idaho State Police remains committed to working closely with the criminal justice community and all concerned citizens on addressing the problems associated with criminal activity in our state.

Colonel G. Jerry Russell
Director, Idaho State Police
In compliance with Idaho Code 67-3006 and 67-2915, the Idaho State Police and fellow law enforcement agencies throughout Idaho submit crime data under the Idaho Uniform Crime Reporting Program. A special note of acknowledgment and gratitude is extended to the local law enforcement agencies listed below for their participation. Idaho’s crime reporting success is greatly attributed to their dedication in providing accurate and complete crime data.

**Population Coverage:** Crime data, reported by 104 Idaho law enforcement agencies, represents 99.1% of the population of Idaho for the year 2010. Statewide rates are calculated on an adjusted population base of 1,554,255.

Population figures for reporting agencies are furnished by the U.S. Census Bureau.
Since 1974, Idaho has participated in the National Uniform Crime Reporting (UCR) Program. This program is a nationwide statistical collaboration designed to collect accurate crime data from all law enforcement agencies in a “uniform” manner. The Idaho UCR Program adopted the expanded and enhanced method of crime reporting, National Incident Based Reporting System (NIBRS), in 1991. Reporting definitions, rules, and guidelines are based on the Uniform Crime Reporting Handbook, NIBRS Edition, provided by the U.S. Department of Justice, Federal Bureau of Investigation.

**Objectives:** The program’s primary objective is to provide a reliable set of criminal statistics for law enforcement purposes. Law enforcement administrators can utilize these statistics for operational use, such as determination of manpower and training needs, proper focus of enforcement efforts and deterrence programs, budgets, and grant proposals. Furthermore, these statistics can provide valuable information to assist law enforcement in identifying specific crime activity facing law enforcement, such as juvenile crime activity, domestic violence, child abuse, crime motivated by hate, property crime, and drug/alcohol related crime.

The program’s secondary objective is to inform all government officials and the public as to the nature of the crime problems in Idaho, its magnitude and trends. Historically, statistics generated from this collection of crime data have proven to be a vital resource to legislators, educators, municipal planners, criminologists, media, advocate groups, and other public and private agencies involved with criminal justice throughout our country.

**Verification Procedures:** An obvious concern in the collection of crime statistics is the validity and uniformity of the data received. Uniform guidelines and statewide training is available to all contributors. Each incoming report is examined for mathematical accuracy and, perhaps of even more importance, for reasonableness as a possible indication of errors. Adjustments or unusual variations are brought to the attention of the submitting agency and, if necessary, corrections are made.

**Considerations for Interpretation:** Crime activity in a particular community can be deceiving unless specific factors are examined and taken into consideration before conclusions are made. Some conditions affecting the type and volume of crime are:

* population size, density, and degree of urbanization
* population variations in composition and stability
* economic conditions and employment availability
* cultural factors and educational, recreational, and religious characteristics
* effective strength of the police force
* administrative and investigative emphases of law enforcement
* prosecutorial, judicial, and/or correctional policies
* values established by family, community, and society in general
* citizens’ attitude toward crime and police
* crime reporting practices of citizens
Conditions for State Participation in the National UCR Program: Outlined in the National UCR Handbook, NIBRS Edition are the following conditions which a state program must operate under: “1) The state must conform to the national UCR Program’s standards, definitions, and information requirements; 2) The state criminal justice agency must have a proven, effective, statewide UCR Program and have instituted acceptable quality control procedures; 3) Coverage within the state by a state agency must be, at least, equal to that attained by the national UCR Program; 4) The state agency must have adequate field staff assigned to conduct audits and to assist contributing agencies in record practices and crime reporting procedures; 5) The state agency must furnish to the FBI all of the detailed data regularly collected by the FBI in the form of duplicate returns, computer printouts, and/or magnetic tapes; 6) The state agency must have the proven capability to supply all the statistical data required in time to meet national UCR publication deadlines.”

Submission Options: Each law enforcement agency is responsible for compiling and submitting their crime data to the UCR unit of the Idaho State Police, Bureau of Criminal Identification. State submission options available to Idaho law enforcement agencies are: online entry utilizing the Idaho Law Enforcement Telecommunications System (ILETS); data file submission from a records management system which has acquired state approval for incident based reporting; or submit a hard copy incident based form, which is limited to agencies with less than 50 reportable incidents a month.

Method of Collection: The National UCR Program is administered by the Federal Bureau of Investigation (FBI). Crime reporting on the national level is currently accepted under two methods, summary based and incident based. For uniform purposes, Idaho law enforcement agencies report only under the incident based reporting method. The summary based method collects the following: Part 1 offenses and arrests data, which consists of eight (8) specific crimes; arrest data only for Part 2 offenses. The incident based method collects the following: Group “A” offenses and arrests data, which includes an additional twenty-two (22) crime categories in conjunction with Part 1 crime; arrest data only on Group “B” offenses.

*Specific offenses exist within the crime category. Refer to crime category section for additional information.
Data Count: Incident based reporting requires a report to be submitted after preliminary confirmation of a call for service or a complaint establishes that a crime was, in fact, committed. Within a single incident report, all reportable offenses, victims, property, suspect/offender, and arrestee data are submitted. Offenses are categorized by crimes against persons, property, and society. Crimes against persons are counted by each victim within an incident (i.e., three victims of murder committed at the same time and place calculate to three offenses of murder). Crimes against property and society are counted by each distinct incident (i.e., three victims of vandalism committed at the same time and place calculate to one offense of vandalism).

Consider the method of reporting when comparing Idaho crime counts with another state. Incident based reporting, unlike summary based reporting, counts up to ten different offenses committed within a single crime incident. Summary based reporting counts only one offense per incident. Due to the increase of the reportable offenses, the total crime counts and crime rates will be higher based on Group “A” crime vs. Part 1 crime.

Arrest data represents the number of persons arrested, not on charges lodged. One set of arrest data is submitted per person per single apprehension, which will clear one or more offenses within the same incident and/or multiple incidents. The reporting agency determines the most serious offense and reports it as the arresting offense.

Participating agencies should only report those arrests for offenses committed within their own jurisdiction. Likewise, agencies should only report property recovered on items stolen from their own jurisdiction. Traffic violations, except for DUI, Hit and Run (of a person), and Vehicular Manslaughter, are not collected under the UCR program.

Clearance: Under the NIBRS reporting guidelines, offenses are considered “cleared” when at least one offender is arrested for a crime or the reporting agency clears the offenses by exceptional means.

Arrest data is submitted on those persons processed by an arrest (detained with the intention of seeking charges), citation, or summons for committing an offense within the reporting jurisdiction. Juvenile arrests are counted when the circumstances are such that if he or she were an adult, an arrest would be reported. Police or official action not taken beyond a mere interview or warning should not be reported.

An exceptional clearance can only be taken when at least one offender is positively identified (exact age, sex, and race), sufficient probable cause to support an arrest or charge exist, offender’s location is known so that an arrest could be made, and a physical arrest is not possible due to specific circumstances outside the control of law enforcement. Those specific circumstances are limited to: death of the offender, prosecution declined, victim refused to cooperate, juvenile/no custody, or extradition denied.

A crime report status of inactive or cases closed does not necessarily “clear” offenses. Unfounded reports, those deemed to be false, without merit, or in fact did not occur, are not counted.

- 1.3% increase of larceny/theft offenses, which accounted for 49.2% of the total crimes against property.

* Adjusted population base: 1,554,255.
The crime clock should be viewed with care. Being the most aggregate representation of the UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Group “A” offenses. This mode of display should not be taken to imply a regularity in the commission of the offenses, rather, it represents the annual ratio of crime to fixed time intervals.
The term Group “A” offenses is utilized under the National Incident Based Reporting System (NIBRS) program guidelines to identify reportable offenses committed within a crime incident. An “incident” is defined as one or more offenses committed at the same time and place by the same offender, or group of offenders that are aware of, and consent to, or assist in the commission of the crime(s). Within a single incident, up to ten distinct crime offenses are reportable.

State statutes must be very specific in defining crimes so that persons facing prosecution will know the exact charges being placed against them. For reporting purposes, crime classifications are generically defined to provide a common denominator for which crime data can be uniformly measured by local, state, and federal law enforcement agencies. Therefore, nonconforming offenses outlined under Idaho state statutes should be reported according to the NIBRS definitions.

**Kidnapping/Abduction**

**Definition**
- The unlawful seizure, transportation, and/or detention of a person against his/her will, or a minor without the consent of his/her custodial parent(s) or legal guardian.

Although the object of a kidnap may be to obtain money or property, kidnapping is a crime against persons. This offense includes not only kidnapping and abduction, but hostage taking as well. This category is intended to capture information on only the persons actually kidnapped or abducted, not those persons or organizations paying ransoms. Therefore, for each offense of kidnapping, the victims are only the persons taken or detained against their will.

**Kidnapping/Abduction**

Robbery

Definition

- The taking, or attempting to take, anything of value under confrontational circumstances from the control, custody, or care of another person by force or threat of force or by putting the victim in fear of immediate harm -

Robbery is a violent confrontation between an offender and a victim; however, it is classified as a crime against property because the primary reason for committing the offense is to take something of value.

A motor vehicle is defined for UCR purposes as a self-propelled vehicle that runs on land surface and not on rails, and whose primary purpose is to transport persons. Motorcycles, scooters, snowmobiles, golf carts, etc. are categorized under “other motor vehicles.” Recreational vehicles are specifically designed to transport people and also provide temporary lodging for recreational purposes. Tractors, farm and industrial equipment, and lawn mowers are not considered “motor vehicles,” as their main purpose is not to transport persons. Motor vehicle theft includes the offense of “joy riding.”

Counterfeiting/Forgery

Definition
- The altering, copying, or imitation of something, without authority or right, with the intent to deceive or defraud by passing the copy or thing altered or imitated as that which is original or genuine; or the selling, buying, or possession of an altered, copied, or imitated thing with the intent to deceive or defraud.

The data collection objective for this offense is to identify what type of item was counterfeited or forged. Nonnegotiable items, such as checks, money orders, and traveler's checks which are not endorsed, are reported with a zero value as these documents require further action to become negotiable.

STATEWIDE
ARREST
PROFILE
The term “arrest” is defined as a physical arrest, citation or served summons. This data represents the number of persons arrested, not on charges lodged; therefore, each reporting jurisdiction submits one set of arrest data for each person per single apprehension. One set of arrest data will clear single or multiple offenses in the same incident and/or multiple incidents. Arrests on warrants issued by another jurisdiction are reported by the originating agency, not the arresting agency.

All persons arrested for the commission of a Group “A” or Group “B” crime are included in this count. Group “B” crime, which is only reported on the arrest level, encompasses offenses which are not under the Group “A” category. Excluded from this count are any traffic related arrests, with the exception of DUI, Hit and Run (of a person), and Vehicular Manslaughter.

34.9% of the weapons in arrestees possession when apprehended were firearms; 13.0% of those firearms were automatic.

31.4% of total arrestees were between 18 and 24 years of age.

10.6% decrease in violent crime arrests.

13.0% decrease in DUI arrests.

Statewide Arrest Profile | page 62 | 2010 Crime in Idaho
Under the UCR guidelines, a juvenile is counted as “arrested” when the circumstances are such that if the juvenile were an adult, an arrest would have been reported. Any situation involving a juvenile, in lieu of an actual arrest, is summoned, cited, or notified to appear before a juvenile court or similar authority for a violation of the law, is reported as an arrest.

42.1% of juvenile arrestees were between 13-15 years of age.

33.4% of juveniles arrested were handled within department (e.g., released to parents; released with warning) and not referred to other authorities, such as juvenile court.

HATE CRIME IN IDAHO
Idaho was one of the first twelve states to pass legislation regarding malicious harassment. Idaho Code 18-7902 and 67-2915 depict policy on hate crime, its collection and reporting. Idaho gathers hate crime information as an additional element and/or characteristic of the offenses reported by law enforcement.

Hate crime incidents are identified on the subjective motivation of the offender(s). Law enforcement investigations solely determine the sufficient objective facts to lead to a reasonable and prudent conclusion that the offender’s actions were motivated by bias against a racial, religious, ethnic/national origin, mental/physical disability, or sexual-orientation group.

Accurate data collection for hate crime depends heavily on proper training of law enforcement to recognize such incidents and the cooperation and desire of law enforcement communities to report these offenses without the influence of special interest groups, media, and politics.

Training material for recognizing and reporting hate crime has been distributed to all law enforcement departments.

Information derived from the following indicators can establish supportive facts to correctly identify hate bias motivation.

♦ Bias-related drawings, markings, symbols, or graffiti were left at the crime scene.
♦ Bias-related oral comments, written statements, or gestures made by the offender which indicate his/her bias.
♦ The incident coincided with a holiday relating to, or a date of particular significance to, a race, religion, disability, ethnicity, or sexual-orientation.
♦ The offender and the victim were of different race, religion, ethnicity, or sexual-orientation.
♦ Certain objects, items, or things which indicate bias were used in the commission of the crime.
♦ The victim is a member and/or engaged in activities promoting a racial, religious, disability, ethnic, or sexual orientation group.
♦ Several incidents occurred in the same locality, at or about the same time, and the victims were all of the same race, religion, disability, ethnicity, or sexual-orientation.

9.7% of hate crime incidents were committed by multiple offenders.
39.1% victims of hate crimes against persons were female.

A property loss of $2,633 resulted from hate crime vandalism incidents.

IDAHO LAW ENFORCEMENT OFFICERS ASSAULTED
Today the ambitious young person who considers a career in law enforcement must also consider the risk of being killed or assaulted by a member of the society they are sworn to protect.

Data collection on officers killed or assaulted includes aggravated assaults which result in serious injury or in which a weapon was used which could have caused serious injury or death. The reporting of simple assault incidents are excluded where mere verbal abuse or minor resistance to an arrest exist.

In 2010, the assault rate calculated at 8.3 per 100 sworn officers.

During the year 2010, no Idaho law enforcement officers were killed in the line of duty.

IDAHO
REPORTING
AGENCY/
COUNTY
INFORMATION
In an effort to depict the nature and volume of crime in a particular community and avoid data being reported more than once, jurisdictional reporting guidelines are established for law enforcement agencies participating in the Uniform Crime Reporting Program.

- City law enforcement agencies report offenses that occur within their city limits.
- County and state law enforcement agencies report offenses that occur outside the city limits.
- When two or more law enforcement agencies respond and/or are involved in an investigation of the same offense, or share respective jurisdictions under agreement, the “primary” or “lead” investigative agency will report the incident.
- Agencies report only those arrests made for offenses committed within their own jurisdictions.
- Recovery of property is reported only by the agency that first reported it missing and/or stolen, regardless of who or what agency recovered it.
- If an agency refers an investigation to another law enforcement agency, the original reporting of the incident is transferred to the receiving agency, unless otherwise specified by an agreement between the agencies.
- Federal agencies report offenses within their investigative jurisdictions if they are not being reported by a local/state law enforcement agency.

2010 Crime In Idaho
IDAHO
LAW
ENFORCEMENT
EMPLOYEE
INFORMATION
Actual counts represent the number of positions filled as of October 31, 2010, and may not match the number of positions authorized for an agency.

Law enforcement officers consist of all full-time, sworn personnel with full arrest powers, which includes the sheriff and deputies, constables, marshals, chiefs and members of the police force, and other officers whose duties are to enforce and preserve the public peace. Although full time civilian employees and jailers may be sworn personnel and are paid from law enforcement funds, if they do not engage in other law enforcement functions, such as patrol, they are not included in the sworn officer count.

Civilian employees include full-time personnel such as radio dispatchers, records personnel, meter attendants, stenographers, mechanics, and jailers paid from law enforcement funds, whose duties serve as support for law enforcement agencies.

In addition to the national UCR program and for Idaho law enforcement administrative purposes, a count of full-time jail employees paid from a separate budget is provided separately in this section.

*Effective July 1, 2000, the Idaho Legislature restructured operations of the Department of Law Enforcement, eliminating the designation and bringing the new organization under the unifying banner of Idaho State Police. Idaho State Police counts include patrol, investigations, and support functions, as well as staffs of the Board, Racing Commission, and Police Officer Standards and Training (POST) Academy.

Glossary Of Terms and Abbreviations
All terms and abbreviations in the publication are for Uniform Crime Reporting (UCR) purposes.

**Acquaintance** - a person whom one knows but who is not a particularly close friend.

**Adjusted Population Base** - statewide population figure is adjusted to reflect only the crime reporting jurisdictions. Population base is used to calculate rates per capita.

**Adult** - a person 18 years of age or older.

**Agency** - an Idaho police department, sheriff’s office or state police.

**Arrest** - a person physically apprehended, cited or served with a summons related to a reportable offense.

**Arrest Rate** - the number of arrests reported for each unit of population.

**B & E** - breaking and entering into a structure.

**Cleared** - indication of an arrest or exceptional status for offenses committed within a reportable crime incident.

**Clearance Rate** - the percentage of reported offenses cleared.

**Cleared by Arrest** - indicating at least one person involved in the commission of the reported incident was arrested.

**Cleared by Exceptional Means** - indicating specific circumstances in which law enforcement has: 1) definitely established the identity of the offender, 2) enough information to support an arrest, 3) obtained in their knowledge, the exact location of the offender so the subject could be taken into custody, 4) and yet reasons outside of their control precludes an arrest. Those reasons are limited to: a) death of the offender, b) prosecution declined, c) extradition denied, d) victim refused to cooperate, or e) juvenile/no custody.

**County Total** - represents all the reporting agencies within a designed geographic area.

**Crime Rate** - represents the number of Group “A” offenses reported for each unit of population.

**Crimes Against Persons/Property/Society** - NIBRS offenses are divided into specific categories. Crimes Against Persons is based on those crimes whose victims are always “individual.” Crimes Against Property is based on the main criminal objective to obtain money, property, or some other benefit. Crimes Against Society represents certain types of criminal activity prohibited by our society.

**CSO** - County Sheriffs’ Office.

**Distribution** - percentage of variables related to each other within a specific grouping.

**DPS** - Department of Public Safety.

**du** - dosage unit.

**Ethnicity** - indicates ethnic origin, regardless of race, as either Hispanic (a person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin) or not Hispanic. Categories adopted from the Statistical Policy Handbook published by the Office of Federal Statistical Policy and Standards, U.S. Department of Commerce.
Family Relationship - a category to reflect the relationship of the victim to the offender in which members are related by blood or marriage. This category will include the following relationships unless otherwise stated: spouse, child, parent, sibling, stepchild, stepparent, stepsibling, grandparent, grandchild, in-law, and other family members.

Group “A” Offenses - thirty crime categories selected under the NIBRS reporting method for which offense and arrest data is collected from participating law enforcement agencies.

Group “A” Crime Rate - the total Group “A” crime offenses reported divided by statewide adjusted population base multiplied by 100,000 inhabitants.

Group “B” Offenses - eleven additional categories selected under the UCR NIBRS reporting method for which only arrestee data is collected from participating law enforcement agencies.

Idaho Code 67-3006 states: “A law enforcement agency shall submit to the department, at the time, in the manner, and in the form prescribed by the department, data regarding crimes committed within that agency’s jurisdiction. The department shall publish an annual report, available no later than July 1 of the following year, containing the statistical information gathered under this section that relates to the number and nature of criminal offenses, arrests, and clearances, and any other data the director determines to be appropriate relating to the method, frequency, cause and prevention of crime.”

Idaho Code 67-2915 states: “All city, county and state law enforcement units shall be required to report to the director all incidences of, complaints on, and arrests for malicious harassment (definition reference Idaho Code 18-7902) crimes within their respective jurisdictions. The director shall develop a standard procedure and shall prescribe and provide a standard form for complete and uniform reporting.”

Incident - one or more offenses committed by the same offender, or group of offenders acting in concert, at the same time and place. Acting in concert requires all offenders to be aware of and consent to, or if non-consenting, their actions assist in the commission of the crime.
