In an effort to depict the nature and volume of crime in a particular community and avoid data being reported more than once, jurisdictional reporting guidelines are established for law enforcement agencies participating in the Uniform Crime Reporting Program.

- ◆ City law enforcement agencies report offenses that occur within their city limits.

- ◆ County and state law enforcement agencies report offenses that occur outside the city limits.

- ◆ When two or more law enforcement agencies respond and/or are involved in an investigation of the same offense, or share respective jurisdictions under agreement, the "primary" or "lead" investigative agency will report the incident.

- ◆ Agencies report only those arrests made for offenses committed within their own jurisdictions.

- ◆ Recovery of property is reported only by the agency that first reported it missing and/or stolen, regardless of who or what agency recovered it.

- ◆ If an agency refers an investigation to another law enforcement agency, the original reporting of the incident is transferred to the receiving agency, unless otherwise specified by an agreement between the agencies.

- ◆ Federal agencies report offenses within their investigative jurisdictions if they are not being reported by a local/state law enforcement agency.

\*Population figures are furnished by the U.S. Census Bureau.
