*Population figures are furnished by the U.S. Census Bureau

In an effort to depict the nature and volume of crime in a particular community and avoid data being reported more than once, jurisdictional reporting guidelines are established for law enforcement agencies participating in the Uniform Crime Reporting Program.

* City law enforcement agencies report offenses that occur within their city limits

* County and state law enforcement agencies report offenses that occur outside the city limits.

* When two or more law enforcement agencies respond and/or are involved in an investigation of the same offense, or share respective jurisdictions under agreement, the 'primary' or 'lead' investigative agency will report the incident.

* Agencies report only those arrests made for offenses committed within their own jurisdictions.

* Recovery of property is reported only by the agency that first reported it missing and/or stolen, regardless of who or what agency recovered it.

* If an agency refers an investigation to another law enforcement agency, the original reporting of the incident is transferred to the receiving agency, unless otherwise specified by an agreement between the agencies

* Federal agencies report offenses within their investigative jurisdictions if they are not being reported by a local/state law enforcement agency.
